Tested and Approved by SP, SWEDEN

How safely your computer media are

Computer media such as diskettes and floppy discs may be easily damaged by heat or humidity (above 85%). For example, even a cup of boiling coffee can

The lost data by heat or humidity can't be recovered in a short time because most of them are the piled up. It is reported that many of the businesses affected by fire suffer from the damages and are declined in t

This could happen to you at home or in the office. But, you can be free from such worries with Diplomat Data Safe. SP (Swedish National Testing & Research Institute) will protect your business records from fire, humidity and theft. Diplomat Data Safe is constructed with a regular fire safe and a multilayer anti-thermo insert to block he
